Band Tear Down Up

No later then 10 min after church

ends: Please grab the carts that carry the equipment and then bring it to the stage.

- Remove all mics from stand and carefully and neatly put them back in the mic case.
- Disconnect the speakers audio and power cables and put the speakers in their cases.
- Put all power cables in the gray bin. Then roll up and place all mic cables in the gray bin
- When disconnecting cables from the audio mixer only disconnect the XLR cables, leave plugged in the ¼ connectors labeled Aux 1 to 6 (there are 6 of them)
- Take all carts back to the Cramer all to the 3rd floor room 380 and place them in their designated spots according the map on the floor.

Sound Operator

Please arrive no later than 8:45 AM and start bringing over the equipment along with the band members. Work in setting up all the audio gear. Then at sound check, work with the band for the desired audio mix for the monitors when asked for help. Prioritize this mix first. Then work on creating a great house mix where vocals are clear and each instrument is heard.

Be sure you test the wireless handheld at the end of the rehearsal so it's ready to go. Bring up the audio from the video channel to play background music as soon as band is done rehearsing. Do the same at the end of the service.

Assist with tear down. First be sure all 4 church iPads are collected and placed in the black backpack. Then assist the team with tear down of the all stage equipment and the return of the equipment to storage.
